

# Grade "A" Food Production Mat No. 482 - Wet Area Anti-Fatigue Mat

## Features and Benefits

- Grade "A" Food Production Mat – The first mat designed specifically for the food production and manufacturing industries.
- Its specially formulated anti-bacterial nitrile rubber composite is designed to withstand solutions used in a wide variety of food processing environments: vegetable oils, animal fats, citrus and fish oil.
- Built-in handles to ease pick-up and cleaning of the mats.
- Hygienic porthole and solid underside design of the mat simplify cleaning and virtually eliminates areas where food and bacteria can collect.
- Substantial underside knobs allow quick drainage and increase the comfort level of the mat.
- Flat, but textured surface increases traction when greasy and wet.

## Specifications

Uses: For use in wet and greasy food production areas.
